Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the Issue Fee.

The change is as follows:

In the claims:

In claim 2, line 4; replace the words "lock level" by the words "lock lever".

COMMENTS

Claims

The claim was amended so as to correct a discrepancy therein.

Reasons For Allowance

The following is an examiner's statement of reasons for allowance: claim 1, the independent claim defines a sequin feeding apparatus comprising a feed lever and a lock lever. The feed lever is driven by a feeding mechanism for feeding a continuous strip of sequins from a sequin reel, a predetermined pitch at a time through forward and rear movement of the feed lever. The lock lever comprises an engaging claw for engaging a center hole of a sequin. The lock lever is driven and is supported by a lock lever drive mechanism located near the feed lever. The lock lever engages a hole of a second sequin after the feed lever feeds a first sequin, thus locking it. When the feed lever resumes feeding the lock lever releases the second sequin so as to permit

movement of the strip. The dependent claims further limit the structure of the sequin feeding apparatus of the independent claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Pertinent Citations

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ochsner illustrate an embroidery machine including means for feeding decorative sequins. Lenson illustrates a sequin feeder, which feeds sequins by using an indexing wheel and includes a cutter for cutting the sequins from the strip. Tajima illustrates a spangle feeder including a clutch mechanism for indexing the sequins onto the material. Cornely illustrates a machine for feeding and sewing a continuous string of sequins. Kurihara illustrates an apparatus for feeding and embroidering with beads.
